| Prices quoted refer to unleaded gasoline. | mixed gasoline 96 octanes |

The bulletin reports prices supplied by the Member states as being the most frequently encountered for the specific categories of sale listed above.

Comparisons between prices and price trends in different countries require care. They are of limited validity, not only because of fluctuations in exchange rate, but also because of differences in product quality, in marketing practices, in market structure, and in the extent to which the standard categories of sales are representative of total national sales of a given product. A description of the methodology followed is appended to the bulletin at the beginning of each quarter.
